

SENT TO U. S. FROM MEXICO

Provisional President Chazaro Denies America Has Any Right to Intervene.

(Continued from First Page.)

Admiral Howard is compelled to land and invade the Yucatan. It will be made plain that its only purpose is to bring the Americans to a place of safety and that this Government has no intention of occupying any territory.

To See Chiefs.

Admiral Howard, in compliance with his orders will endeavor, before landing his force, to get in touch with the chief of the Indians and seek to persuade him of the danger of attacking the Americans.

Reports from San Diego are that Admiral Howard has not only sailed with the flagship Colorado, but that the cruiser Chattanooga has started from San Diego to join the Colorado and that the cruiser Raleigh will follow immediately.

The Navy Department admitted today that it was entirely possible that the two other cruisers would join the Colorado.

The three cruisers have available for landing purposes 1,000 officers and men, besides the marines, who number about 200.

Admiral Howard is expected to advise the department today concerning the strength of his expedition.

Only Hope With Villa.

The only hope of the officials that landing of an expeditionary force may be avoided is based on assurances from General Villa that his troops would rout the Yaquis and protect foreigners.

Despite these assurances, given through General Maytorena, Villista General of Sonora state, this government will not modify instructions, with wide discretionary authority, given Admiral Howard to use his force as he may deem necessary.

Maytorena, according to one report, is rushing troops to the Yaqui valley, but other reports are to the effect that the Mexican soldiers have retreated before the Indians' fire.

That some of the soldiers under Maytorena are in line of march, and some cases have been refused to fire upon the Yaquis, was another report here today.

During the last uprising two companies of Maytorena's troops openly rebelled and left the valley.

The latest report of casualties resulting from the uprising is that three persons were killed and eleven wounded in an attack upon a Mexican southern Pacific work train at Mapoli, Sonora, last Saturday.

Two Americans Hurt.

Two Americans, W. E. Bach, water superintendent, and W. P. Smith, brakemen, were said to be slightly wounded.

Upon the arrival Sunday of Admiral Howard's forces, after conference with the American consul at Guaymas and officers of the Raleigh and New Orleans, it is expected that an escort will be sent to the valley accompanying a representative of Admiral Howard to meet the Yaqui chiefs. If the colonists are in immediate danger, however, Admiral Howard will send his land forces ashore at once.

Reports that Admiral Caperton, in charge of naval forces on the Atlantic coast of Mexico, had asked that "all available" ships be sent to Vera Cruz were officially denied today. It was explained that Caperton's request was merely that naval vessels be used to carry famine relief supplies to Vera Cruz. His suggestion was not favorably received. The Administration's policy is to let the Red Cross handle the famine situation exclusively, without participation by the army or navy.

Split in Cabinet.

From Vera Cruz Consul John R. Silliman reported dissensions in the Carranza cabinet, stating that Carranza had accepted the resignation of Foreign Minister Zubaran and his minister of justice, and that two other Cabinet officials had presented their resignations. It is understood that the split occurred over Carranza's refusal to respond to the efforts of the United States to get him to agree to the proposed peace conference.

Occupation of Mexico City expected today, said a bulletin issued by the Carranza agents here this afternoon. It was added that General Gonzales' army had captured Texcoco, fifteen miles from the city and that it had provisions for the capital.

Monterrey, according to State Department advices, is again the scene of fierce fighting. Villa reportedly in retreat, with the Carranzistas in hot pursuit.

Chazaro's reply completes the responses expected by this government from the various factional leaders to whom President Wilson's message of warning was sent Tuesday. At Vera Cruz words long, and while couched generally in friendly terms supporting the Villa proposal its tone is distinctly defiant, and at times suggestive of discussing the possibility of American intervention.

Quotes President.

Taking a leaf out of President Wilson's Indianapolis speech, in which the President stated that he favored leaving Mexico alone in the task of working out her destiny, Chazaro added: "If I were strong I would be ashamed to dictate to the weak. The conventionalist government does not see or wish to see in the President's suggestions anything more than advice, or suggestions."

Upholding Villa's peace overtures to Carranza, Chazaro said Carranza, with selfishness, but expressed confidence that the first chief of the constitutionalists would not, in the end, turn a deaf ear to the proposals. He said, he declared, Carranza would be responsible for prolonging the fratricidal war. He charged that the Carranza delegates to the Aguas Calientes convention had deliberately violated their oath of allegiance to Provisional President Guiterrez.

Claiming to represent Mexico's "sovereign convention," Chazaro closed with promises to restore order and carry out the revolutionary reforms.

LOCAL AND N. Y. FINANCIAL NEWS

DULLNESS RULES ON WASHINGTON 'CHANGE'

Not a Single Sale Recorded Prior to Call on Stock Market Today.

The lack of interest in local securities today was evidenced by the fact that the regular call on the Washington Stock Exchange was completed without a single sale being recorded. The business of the day, consisting of three bond sales and an odd lot of stock, was conducted "after" call.

Under the dullness price levels receded fractionally in the usually active issues. Several of the less active securities, on the other hand, advanced. In the case of Greene-Cannara Corporation, which was bid up sharply from 36 to 41. The impetus given this stock was the announcement that the company had resumed operation of its Mexican properties.

A \$1,000,000 Washington Gas 5 percent bond brought 106, or one-half a point more than the price paid on the last sale. The other transactions consisted of a \$1,000,000 Electric Power Corporation 5 percent bond, which sold at 104 1/2, and five shares of Morganthaler Linotype stock at 183.

The Security Storage Company has declared a quarterly dividend of 2 1/2 percent, payable July 10 to stockholders of record June 21. The transfer books will be closed from June 18 to June 22.

A quarterly dividend of 2 percent has been declared by the Eastern Light and Fuel Company, payable July 1 to stockholders of record June 21. The transfer books will be closed from June 18 to June 22.

Directors of the German-American Fire Insurance Company at their organization meeting today elected E. O. Schafer, president; Charles Schafer, vice president; J. A. Maedel, treasurer; H. H. Bergmann, Secretary, and G. M. Emerich, assistant secretary.

The directors also elected W. E. Edmonston, C. B. Pearson, E. L. Schmidt, O. L. Wolfstetter, Francis A. Blundon and H. E. Gasch.

Prices Continue to Back and Fill, Railroad and Industrials Showing Slight Losses.

NEW YORK, June 18.—Though there was no evidence of stock in volume pressing for sale, the market today was still dominated by a spirit of hesitancy, and prices continued to back and fill with fractional fluctuations.

In the railroad list the changes recorded were generally downward, but were confined to the narrow limits of a half point or less. The same tendency was manifested by the industrial issues. Here, however, the losses were more pronounced.

Traders did not seem to be deeply concerned over the foreign exchange situation, or the likelihood of liquidation of American securities by Europe, as had been the case for the two previous days. Their concern today appeared to be centered more in the general international outlook, and its possible bearing upon the United States.

United States Steel was one of the few stocks to show a gain, selling up 1/4 point to 60 1/4. Great Northern Ore advanced 1/4 point to 37 1/4, and Baldwin Locomotive rose 1/4 point to 104 1/4, while General Motors, at 138 1/4, was up 1/4 point.

Other issues showed a general sagging tendency, with dragged prices down 1/4 point, a few instances as much as 1/2, the measure of the reaction suffered by Mexican Petroleum, which sold at 74 1/4.

Boundaries Needed.

"Ma! Ma!" bawled Freddie as the usual morning wash was going on. "Do my ears belong to my face or my neck?"

"Ma temporized. "Why, what is the matter?" she asked.

"I want it decided now. Every time you tell Mary to wash my face or my neck she washes my ears, too!"
